The Blue Book of Detectable Products - April 2021

[detectamet.global](https://detectamet.global)

# Welcome to the Home of Detectable Products!

The **Blue Book of Detectable Products** is the place to find the greatest range of detectable products at the best prices! Established in 2003, Detectamet work with food, beverage and pharmaceutical manufacturers around the world to improve food safety and reduce the risk of foreign matter contamination.

## the **Blue Book** of etectable Products®

### Why do you need detectable products?

Food, beverage, and pharmaceutical industries need to prevent / reduce the risk of foreign body contamination.

Physical contaminants can damage equipment and cause injury. If they reach the consumer you will be faced with an expensive recall, which could seriously harm your reputation.

The safest way to eliminate and protect against this risk is to use metal detectable and X-ray visible products in all areas of your processing facility.

At Detectamet we take our business very seriously, which is why we are ISO accredited in:

9001: Quality Management

14001: Environmental Management

45001: Occupational Health and Safety Management

# The Blue Book of Detectable Products

## Product Innovation

Not content to stand still, our product development team are constantly developing new detectable products to help you avoid foreign body contamination.

**BRCGS** | In Partnership with

In our line of work it's imperative that our products contribute to making food production safer. This is why we work in partnership with BRCGS through their Partner Connection Programme.

# We have 5 sites globally, based in the UK, Germany, USA, Canada and Australia!

our global presence allows us to provide customer support 24 hours a day

## Product Development Specialists

At Detectamet, we have an agile product development team who regularly **design bespoke detectable products** for our customers. Please get in touch if you require a custom-made detectable product.

## Fabrication & Manufacturing Specialists

At Detectamet, we pride ourselves on our **development & manufacturing** of high quality **detectable products** for our **food, beverage and pharmaceutical** customers. This capability has recently been enhanced by investment in our **state-of-the-art injection moulding machines**.

We manage the **design and fabrication** of our product range and **regularly upgrade our products** to ensure they are as detectable and fit-for-purpose as possible.

If you require a detectable product that isn't currently listed in this catalogue, **please reach out to us**. We are likely to have the **capacity and expertise to design and manufacture** a product to suit your requirements.

### What do you get from Detectamet?

Detectamet's product range offers you the best in detectability, made from a unique, patented polymer that contains the highest level of detectable additive, without compromising on durability, and manufactured from EU & FDA (Food and Drug Administration) food contact approved materials.

- Unique polymer - contains highest levels of detectable additive on the market
- A large selection of products comply with EU and FDA food contact regulations
- Durable products - minimise risk of breaking and entering the food chain
- Largest range of detectable products on the market
- Colours - prevent cross contamination with nine strong, detectable colours available in many products. Blue, black, red, green, yellow, white, purple, orange and pink
- Bespoke products available on request
- Branding/sequential numbering with in-house laser engraver/pad printer
- Free samples available

## Detectamet work in partnership with BRCGS through the Partner Connection Programme

Our pens are made from shatter resistant FDA/EU Food grade materials which contain a detectable additive, making them detectable by foreign body detection equipment, and are designed without small parts that can break off and enter the food chain.

### Ink Types

Detectamet's pens and refills come in four different types of ink and **it's important you choose the right ink for the correct working environment**. Standard inks are not suitable for cold and wet areas.

Ink type	Which environment is it suitable for?	Available colours	Notes
<b>Standard</b>	Ambient conditions 0°C up to 30°C (32 to 86°F). Writing line width 1mm (39.4 mils)		
<b>Pressurised Cryo</b>	Extreme colds -15°C up to 60°C (5 to 140°F) E.g. freezers/cold stores; wet areas; powdery surfaces; greasy surfaces, underwater, writes upside down. Writing line width 1.2mm (47.2 mils) Unlimited shelf life		<i>Due to the pressurised nature which maintains a consistent ink flow, it's important to clean the nib frequently to limit the build-up of ink</i>  <i>Unlimited shelf life</i>
<b>Fine tip</b>	Ambient conditions. Writing line width 0.7mm (27.6 mils)		
<b>Gel</b>	Ambient conditions -5°C up to 30°C (23 to 86°F); cold environments; dusty environments. Writing line width 0.7mm (27.6 mils)		

### Safety Chains and Split Ring Attachments

Retractable markers are unique and can easily get lost, so why not have safety chains and split ring attachments fitted to your pens?

To order use product codes:

Split Ring	153-T203
Safety Chain	155-P44-S083-A93

## Metal Detectable & X-Ray Visible Pen Tether

FR: Attache de stylo  
ES: Cuerda de la pluma  
DE: Stiftband

500mm (19.68") safety chain with split ring and clip at either end. Ideal for attaching to a clipboard, ring binder or anchor point on a desk or wall.

PROVIDED WITH  
CLIP AND SPLIT  
RING AT EITHER  
END

# Heavy Duty (HD) Retractable Detectable Pens

FR: Stylo rétractable robuste ES: Bolígrafo retráctil de alta resistencia DE: Extrastarker Druckkugelschreiber

These are our best-selling retractable metal detectable and X-ray visible pens, designed to be extremely durable and shatter proof – minimising any risk of foreign body contamination.

Made from Detectamet's unique detectable polymer, the rugged construction makes it resilient, so it won't break under stress, whilst the ergonomic grip allows a firm hold in a wide range of environments.

# Retractable Detectable Pens

FR: Stylo rétractable éléphant ES: Bolígrafo retráctil Elefant DE: Druckkugelschreiber Elefant

Each component is metal detectable and X-ray visible and is specifically designed for the food safety industry to minimise risk of foreign body contamination from parts breaking off and entering the food chain.

As with all Detectamet's products, it's shatter proof and incredibly durable, and to minimise your environmental footprint it can be filled with a fully detectable refill to extend its life.

# Detectable One-Piece Pens

FR: Stylo éléphant ES: Bolígrafo Elephant DE: Kugelschreiber „Elefant“

Part of Detectamet's range of detectable pens, Elephant stick pens are made in the UK using our unique detectable polymer.

With its clever one-piece design, it significantly reduces the chance of foreign body contamination.

They are a cost-effective solution for use in open product areas and, as with all Detectamet's products, they are shatter proof and extremely durable.

## Features & Options

# Detectamet Offer **Own Branding & Sequential Numbering**

**Perfect for knives and other products, sequential numbering is done in-house on our laser engraving machine.**

Sequential numbering gives you complete traceability and is particularly important if production presents higher risks, making it even more important to eliminate any type of contamination.

Our cost effective laser engraving service adds sequential numbers onto your products.

**How about branding your detectable products using our cost effective pad printer?**

Pad printing offers superior quality one and two colour print on 3D irregular, curved and textured objects, making it perfect for our products.

**Where pad printing and laser engraving are not appropriate - due to the product - we can print your logos at point of manufacture, e.g. keyhole tags, test pieces. Ask a member of our team for advice.**

**Can't see what you're looking for?**

**Or are you looking for a detectable product for a specific project or application?**

**Don't worry!** We're always happy to talk about bespoke products and will always try our best to find a solution.

# Metal & X-Ray Detectable Clipboards

Our range of clipboards can be tailored to meet your individual needs. Talk to a sales representative for more details and product codes.

# Metal & X-Ray Detectable Plasters / Bandages

**FR:** Pansements détectables

**ES:** Tiritas detectables

**DE:** Metalldetektierbare Heftpflaster

Hygiene is of paramount importance in the food processing industry.

Our innovative range of detectable plasters are blue in colour and offer a dual detection system, making them detectable by both metal and X-Ray inspection systems – required under BRCGS Issue 8. They are also fully FDA 21 CFR Part 807 approved.

Available in eight popular sizes, these detectable plasters come in packs of 50 or 100 dependent on size. We also offer an assorted pack of 100 containing multiple sizes.

Colour: 

DESCRIPTION	PACK SIZE	PRODUCT CODE
Detectable Plasters 38 mm x 38 mm (1.49 x 1.49")	100	403-S124-X11

# Detectamet Offer **Own Branding & Sequential Numbering**

**Perfect for knives and other products, sequential numbering is done in-house on our laser engraving machine.**

Sequential numbering gives you complete traceability and is particularly important if production presents higher risks, making it even more important to eliminate any type of contamination.

Our cost effective laser engraving service adds sequential numbers onto your products.

**How about branding your detectable products using our cost effective pad printer?**

Pad printing offers superior quality one and two colour print on 3D irregular, curved and textured objects, making it perfect for our products.

**Where pad printing and laser engraving are not appropriate - due to the product - we can print your logos at point of manufacture, e.g. keyhole tags, test pieces. Ask a member of our team for advice.**

**Can't see what you're looking for?**

**Or are you looking for a detectable product for a specific project or application?**

**Don't worry!** We're always happy to talk about bespoke products and will always try our best to find a solution.

# Metal Detectable Utility Clips

FR: Clip pratique détectable

## Partially Metal Detectable & X-Ray Visible Prover Pocket

**FR:** Poches de fermentation  
**ES:** Cuenco de malla para leudar masa  
**DE:** Teigmulden

**1**  
PACK

This blue prover pocket has a fully detectable frame and is made from food safe, approved materials, making it perfect for proving and shaping dough.

### Features & Options

- Partially metal detectable (by frame)
- Partially X-Ray visible (by frame)
- Frame securely fixed to mesh
- Size: 168 x 187 x 85 mm (6.61 x 7.36 x 3.34")

**Colour:**

**PRODUCT CODE:** 520-P01-A38-S144

## Metal Detectable & X-Ray Visible Bucket with Lid

**FR:** Seau à couvercle  
**ES:** Balde con tapa  
**DE:** Eimer mit Deckel

**1**  
PACK

A twelve litre detectable bucket with a lockable lid to protect contents and prevent spillages.

### Features & Options

- Metal detectable
- X-Ray visible
- Manufactured from EU and FDA food contact approved detectable polymer
- Lockable lid
- Detectable wall bracket available (505B-P01)
- Size: 12l (3 US gallon)
- Suitable for pad printing

**Colour:**

**Made In:**

## Metal Detectable Polythene Bags and Liners

**FR:** Sacs et doublures en polyethylene

**ES:** Bolsa y revestimientos de polietileno

**DE:** Plastiktüte Taschen und Folien

A high proportion of foreign body contamination is due to bulk and product packaging failure, so we have developed detectable bags and liners manufactured from detectable polythene. This is a bespoke product so please talk to a sales representative for more details.

**SIZE: THIS IS A  
BESPOKE PRODUCT -  
ANY SIZE IS POSSIBLE**

### Features & Options

VARIOUS  
PACKS

### SUITABLE FOR MANY APPLICATIONS, INCLUDING:

- Box liners
- Heavy duty ingredients bags
- Extra large tote bin covers
- Pallet covers
- Sheets and film

Colours:

**PRODUCT CODE:** 871-PO

**detectamet**

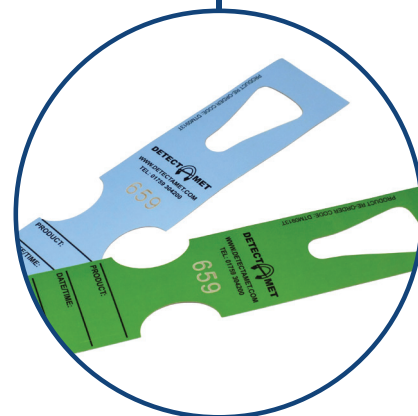

# Detectamet Offer Own Branding & Sequential Numbering

**Perfect for knives and other products, sequential numbering is done in-house on our laser engraving machine.**

Sequential numbering gives you complete traceability and is particularly important if production presents higher risks, making it even more important to eliminate any type of contamination.

Our cost effective laser engraving service adds sequential numbers onto your products.

**How about branding your detectable products using our cost effective pad printer?**

Pad printing offers superior quality one and two colour print on 3D irregular, curved and textured objects, making it perfect for our products.

**Where pad printing and laser engraving are not appropriate - due to the product - we can print your logos at point of manufacture, e.g. keyhole tags, test pieces. Ask a member of our team for advice.**

**Can't see what you're looking for?**

**Or are you looking for a detectable product for a specific project or application?**

**Don't worry!** We're always happy to talk about bespoke products and will always try our best to find a solution.

## Metal Detectable and X-Ray Visible Pallet Bands

FR: Bande de palette

ES: Banda de paleta

DE: Palettenband

Our metal and X-ray detectable elastic pallet band keeps pallets together and organised. Our pallet bands stretch to twice their original length.

## Our 6 Step Ordering Process

Enquiry

Please specify colour, size, featured products and any additional information / requirements for your board.

Quotation

Your quotation for your board will be sent back to you within one working day.

Order

Once you are happy with the quotation and we have received all information, we can now proceed to order.

Proofing

Once the artwork proofs are available, we will ask for your artwork to be proofed & signed off.

Production

Our in-house production team will complete your order in the time agreed.

Delivery

Once production is completed your board will be carefully delivered to your site.

PRODUCT CODE: 931

# Detectable Safety Knife Features

Ensure you choose the correct knife for your requirements by consulting the Safety Knife Features outlined below and listed on each product description.

### Replacement Blades Available

We offer replacement blades for many of our safety knives.

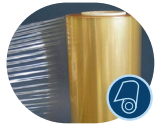

### Cardboard

Suitable for cutting through cardboard packaging. For consistent cutting of thicker cardboard, we recommend our Heavy Duty Knife Range.

### Plastic Strapping

Suitable for cutting through plastic strapping, usually found wrapped around cardboard boxes.

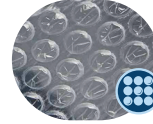

### Plastic Wrapping

Suitable for cutting through plastic wrapping.

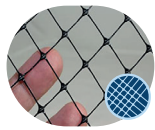

### Sacks/Plastic Bags

Suitable for cutting through plastic sacks and bags.

### Bubble Wrap

Suitable for cutting through bubble wrap.

### Plastic Netting

Suitable for cutting through plastic netting.

### Plastic Adhesive Tape

Suitable for cutting through plastic adhesive tape.

### Retractable Blade

Some of our detectable knives are retractable for added safety.

**Disposable Knives:** Safety knives with a non-replaceable blade.

**Light Duty Knife Range:** A lighter duty knife, capable of cutting thin plastics and card.

**Normal Duty Knife Range:** A longer-lasting knife, capable of cutting a variety of products, from lighter materials to thicker plastics and card.

**Heavy Duty Knife Range:** Our longest lasting range of knives, resilient to consistent cutting of thicker packaging, including heavy duty cardboard.

**ES:** Navaja de hoja serrada  
**DE:** Feststellbares Gärtnermesser

This heavy duty locking knife comes with a blue detectable handle and has a stainless steel pruning blade, making it ideal for gardening, farming and general purpose use.

### Features & Options

- Metal detectable
- X-Ray visible
- High carbon stainless steel locking blade
- Curved blade, sharpened on concave edge

### DETECTABLE

- Also available with a shackle (additional cost applicable)
- Blade length: 60mm
- Suitable for pad printing/laser engraving
- This is not a safety knife

Colour:

Made In: **UK**

**PRODUCT CODE:** 605-T045-P01

## Metal Detectable & X-Ray Visible Stainless Steel Locking Knife with All Purpose Blade

**FR:** Couteau verrouillable en acier inoxydable avec lame tous usages  
**ES:** Navaja de acero inoxidable multiusos  
**DE:** Feststellbares Edelmessmesser Mit Allzweckklinge

This locking knife has a carbon stainless steel general purpose blade and satin finish stainless steel handle, making it ideal for farming and general purpose use.

### Features & Options

- Metal detectable
- X-Ray visible
- High carbon stainless steel locking blade
- All purpose blade suitable for multiple applications

- Also available with a shackle (additional cost applicable)
- Blade length: 70mm
- Suitable for pad printing/laser engraving
- This is not a safety knife

Colour:

Made In: **UK**

**PRODUCT CODE:** 606-Q04-T220

## Metal Detectable & X-Ray Visible Stainless Steel Locking Knife with Pruning Blade

**FR:** Couteau verrouillable en acier inoxydable avec lame a élaguer

**ES:** Navaja de acero inoxidable con hoja serrada

**DE:** Feststellbares Gärtnermesser aus edelstahl

This locking knife has a carbon stainless steel pruning blade and satin finish stainless steel handle, making it ideal for farming and general purpose use.

### Features & Options

- Metal detectable
- X-Ray visible
- High carbon stainless steel locking blade
- Curved blade, sharpened on concave edge

- Also available with a shackle (additional cost applicable)
- Blade length: 70mm
- Suitable for pad printing/laser engraving
- This is not a safety knife

Colour:

Made In: **UK**

**PRODUCT CODE:** 606-Q05-T223

## Metal Detectable & X-Ray Visible Stainless Steel Locking Knife with Drop Point Blade

**FR:** Couteau verrouillable en acier inoxydable avec lame drop point

**ES:** Navaja de acero inoxidable con hoja en punta

**DE:** Feststellbares edelmessmesser mit drop-point-klinge

This locking knife has a polished carbon stainless steel drop point blade and satin finish stainless steel handle, making it ideal for general purpose use.

### Features & Options

- Metal detectable
- X-Ray visible
- High carbon stainless steel locking blade
- Blade spine slopes from handle to tip

- Also available with a shackle (additional cost applicable)
- Blade length: 60mm
- Suitable for pad printing/laser engraving
- This is not a safety knife

# PROFESSIONAL KNIVES

Our detectable professional knives are made from fully hardened and tempered stainless steel to ensure maximum edge retention.

The handles are manufactured from EU & FDA food contact approved detectable polymer.

To achieve maximum hygiene levels, handles are insert moulded to the blades, preventing build-up of contaminants and allowing it to withstand rigorous sterilising and dishwasher use.

## Handles

Depending on knife function and frequency of use, handles come in two different shapes:

**Regular** – designed for holding the knife safely and comfortably for long periods

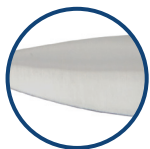

**Ergo** – designed for all day use by reducing stress to the hand and wrist and providing thumb support

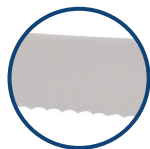

## Edges and Blades

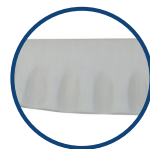

We offer three different types of blade, dependent on function:

**Plain** – ensures a fine, robust, long lasting edge, predominantly used in the meat processing industry

**Serrated/wavy** – the teeth along the blade edge allows a tough cut, whilst protecting the softer inner of a product. This is the perfect edge for cutting bread and pastry

**Scalloped** – with scallops running on each side of the blade, air can enter between the blade and cut products, allowing the cut slice to easily fall away making it perfect for slicing meat

## Colour Coding System

It is crucial to minimise the spread of contamination when dealing with certain allergens that could present a serious threat to health or life. To minimise this risk our knife handles are available in nine detectable colours.

## Metal Detectable & X-Ray Visible Vegetable Knives

FR: Couteau à légumes  
 ES: Cuchillo para verduras  
 DE: Gemüseputzmesser

Made In:  
 UK 

These vegetable knives come in three different blade lengths, have various blade and tip options and are available in nine different colours.

## Metal Detectable & X-Ray Visible Wavy Edge Slicers

FR: Couteau à pain  
 ES: Cuchillo con borde ondulado  
 DE: Brotmesser

10  
PACK

These detectable wavy edge slicers come in two blade lengths, both available in nine different colours.

Made In:  
UK

### Features & Options

- Metal detectable
- X-Ray visible
- Handle manufactured from EU & FDA food contact approved detectable polymer
- Hardened and tempered stainless steel
- Serrated blade
- Regular handle
- Blade lengths: 254, 305mm (10, 12")
- Suitable for pad printing/laser engraving

# Metal & X-Ray Calibration Test Pieces

FR: Pièces de test d'étalonnage compatibles avec les systèmes d'inspection par rayons X ou de détection des métaux

ES: Objetos para pruebas de calibración de rayos X y detección de metales

DE: Metall- und Röntgenkalibrierungs-Prüfkörper

## Features & Options

- HACCP compliance requires inspection equipment to be installed at critical control points and be routinely QA tested with the results documented. Using these test pieces allows you to demonstrate your commitment to a QMS
- Manufactured from Acrylic, heavy duty PTFE or FDA Acetal Copolymer
- Available in a variety of sizes and types of contaminants
- Calibrated and certified to BS EN ISO 9002 and UKAS - offering full traceability
- Manufactured with high visibility colours for easy recognition and etched with a traceable code
- Each test piece comes with a FREE certificate of conformity
- Bespoke Test Pieces are available upon request - please contact your local sales representative for more details

**FREE CERTIFICATE OF CONFORMITY WITH ALL TEST PIECES**

We can also supply bespoke test kits containing your most used test pieces. Storage boxes are also available to keep your range of calibration pieces safe. All bespoke test kits are supplied with a USB stick with relevant Certificate of Conformity information.

# Metal & X-Ray Detectable Detectasil® Silicone Caulk

FR: Joint au silicone Detectasil®

ES: Sellante de silicona Detectasil®

DE: Detectasil® Silikondichtmittel

This innovative product, detectable by both metal detectors and X-Ray detection systems, is perfect for use in structural fitting and equipment installation within food processing areas, reducing your risk of undetected foreign body contamination of food.

Detectasil® is a neutral cure sealant, which offers better adhesive properties for a greater number of materials including PVC-U, most other plastics, glass, aluminium, lead, stone and masonry and Polycarbonate.

## Features & Options

**DETECTABLE BY STANDARD METAL AND X-RAY DETECTION SYSTEMS**

**SERVICE TEMPERATURES OF - 30°C TO + 150°C (-22 TO 302°F)**

**NEUTRAL CURE - BETTER ADHESIVE PROPERTIES**

**TUBE IS 32CM LONG (INCLUDING NOZZLE) AND 5CM DIAMETER**

**NOT SAFE FOR FOOD CONTACT**

**UNPALATABLE TO RODENTS**

**FOR USE WITH A STANDARD APPLICATOR GUN**

**LONG SERVICE LIFE - UNOPENED WILL STORE FOR 12 MONTHS**

**SUITABLE APPLICATIONS:**  
windows & doors, wall panels, machinery, finishing, basins and other sanitaryware

COLOURS:  

**PRODUCT CODE:** 820-P01 (blue), 820-P06 (white)

# Metal Detectable 'Detectathene' UHMWPE

FR: UHMWPE

ES: UHMWPE

DE: UHMWPE

This UHMWPE, with an extremely high degree of polymerisation, contains a metal detectable additive and offers excellent toughness, impact strength, and wear/abrasion resistance. FDA approved, it has been specifically designed for use in the food processing and packaging industries to prevent foreign body contamination.

This is a **bespoke product** so please talk to a sales representative for more details.

## Metal Detectable & X-Ray Visible O-Ring

FR: Joints toriques

ES: Juntas tóricas

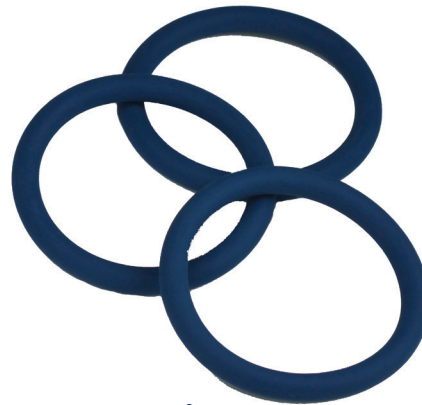

DE: O-Ringe

This detectable o-ring has been specifically developed to meet the stringent demands of the food and pharmaceutical industries and is manufactured as a bespoke product. Available in several sizes and colours, the majority of sizes are FDA compliant or are manufactured from food safe grades of EPDM, nitrile and fluorocarbon (FKM) compounds.

Fragments as small as 2mm can be identified by standard metal detection equipment.

MANUFACTURED FROM FDA COMPLIANT ELASTOMERIC MATERIALS

DESIGNED FOR MICROBIAL, HIGH-TEMPERATURE AND MECHANICAL APPLICATIONS

TEMPERATURE RANGE -50 TO 200°C (-58 TO 392°F)

## Metal Detectable & X-Ray Visible Acetal

FR: Acetal

ES: Acetal

DE: Acetal

This copolymer acetal, containing a metal detectable additive, has been specifically designed for use in the food processing and packaging industries, where it can easily be traced by conventional metal detection systems. *Results may vary depending on the sensitivity of the metal detection system used.*

It presents good mechanical strength, stiffness and impact strength and it features a food contact compliant composition.

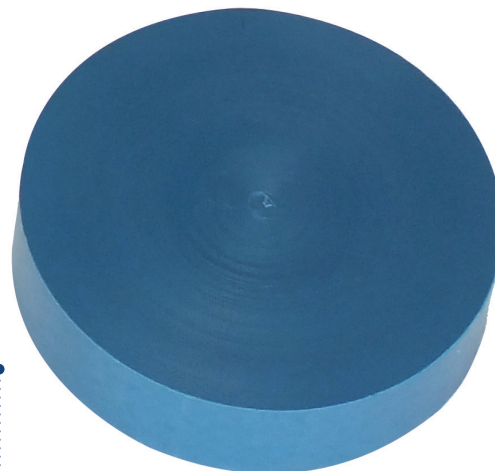

This is a bespoke product so please talk to a sales representative for more details.

### Features & Options

## Metal Detectable Silicone Rubber Sheeting, Strips and Extrusions

FR: Feuille en caoutchouc silicone

ES: Lámina de caucho de silicona

DE: Silikongummiunterlage

This metal detectable Silicone is available in rubber sheeting, strips and extrusions, all manufactured from FDA approved food safe materials. It is perfect for demanding applications, having excellent heat and flame resistance and good aging and weathering characteristics.

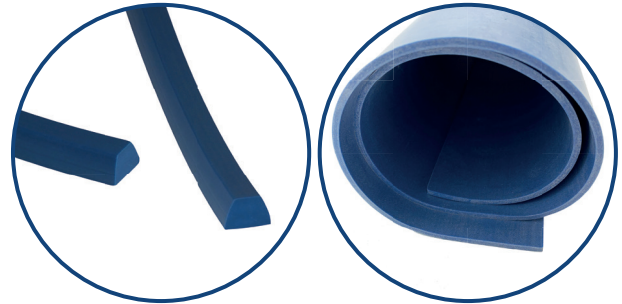

This is a bespoke product so please talk to a sales representative for more details.

**TEMPERATURE RANGE** -60 TO 200°C (-76 TO 392°F)

## Metal Detectable & X-Ray Visible PTFE

FR: PTFE

ES: PTFE

DE: PTFE

This is an FDA approved blue PTFE, both metal detectable and X-Ray visible, which ensures that fragments as small as 3 x 3 x 3mm (0.11 x 0.11 x 0.11") can easily be detected, avoiding foreign body contamination.

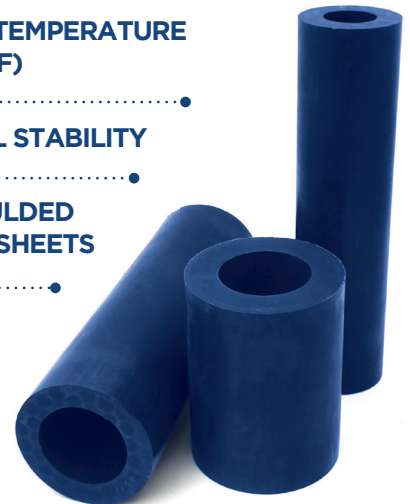

This is a bespoke product so please talk to a sales representative for more details.

**CONTINUOUS USE TEMPERATURE UP TO 260°C (500°F)**

**HIGH DIMENSIONAL STABILITY**

**AVAILABLE IN MOULDED TUBES, RODS AND SHEETS**

**FDA COMPLIANT TO 21 CFR 177.2600**

### Features & Options

**1**  
PACK

Colour:

#### MOULDED TUBES

OD: 40 - 1815 mm (1.57 - 71.45")

ID: 15 - 1740 mm (0.59 - 68.50")

Max Length: 300 mm up to 350 mm OD (11.81" up to 13.77" OD)

100 mm up to 1815 mm OD (3.93" up to 71.45" OD)

#### MOULDED RODS

OD: 30 - 700 mm (1.18 - 27.55")

Max Length: 300 mm up to 330 mm OD (11.81" up to 12.99" OD)

100 mm up to 700 mm OD (3.93" up to 27.55" OD)

#### MOULDED SHEETS

600 mm - 1000 x 2000 mm (23.62" - 39.37 x 78.74")

Thickness: 4 - 100 mm (0.15 - 3.93")

**PRODUCT CODE:** 835-

## Metal Detectable & X-Ray Visible 'Detectathane' Polyurethane Belting

FR: Courroies en polyuréthane

ES: Correas de poliuretano

DE: Polyurethan-gurt

This blue polyurethane contains a metal detectable additive. It is FDA and EU approved, specifically designed for use in the food processing and packaging industries where it is traceable by conventional detection systems. *Results may vary depending on the sensitivity of the metal detection system being used.*

It is specifically targeted for extruded profiles, film and sheet applications and it exhibits the excellent abrasion resistance and properties found with standard thermoplastic polyurethanes (TPU) whilst also being metal detectable.

This is a bespoke product so please talk to a sales representative for more details.

## Metal Detectable & X-Ray Visible PA6 Filled Nylon

FR: Nylon renforcé en PA6

ES: Nylon con poliamida 6

DE: Nylon mit PA6-füllung

This blue polyamide 6 grade contains a metal detectable additive. It is FDA and EU approved, specifically designed for use in the food processing and packaging industries where it is traceable by conventional detection systems.

Detectable Filled Nylon presents good mechanical strength, stiffness, impact strength and wear resistance.

This is a bespoke product so please talk to a sales representative for more details.

## Metal Detectable & X-Ray Visible PEEK

FR: PEEK  
ES: PEEK  
DE: PEEK

This dark grey PEEK contains a metal detectable additive. It is FDA and EU approved, specifically designed for use in the food processing and packaging industries where it is traceable by conventional detection systems. *Result may vary depending on the sensitivity of the metal detection system being used.*

It is designed for multiple sterilisable machine parts and continual use up to 250°C (482°F) in applications where good wear resistance is necessary for high line speeds, mainly in equipment with CIP or SIP (cleaning or sterilisation in place) requirements.

This is a bespoke product so please talk to a sales representative for more details.

## Metal Detectable Health & Safety Floor Stickers

FR: Autocollants au sol  
ES: Pegatinas de piso  
DE: Bodenaufkleber

Made In:  
UK 

New  
Product!

Keep your workplace organised and your workforce safe with our metal detectable floor stickers. With strong adhesive to the back of the sticker, these will stick to floors, carpets and walls. Custom sizes are available upon request.

**SIZE:**

254mm (10") Diameter

**PRODUCT CODE:** 405

# Metal & X-Ray Detectable Floor Sign

FR: Signe de plancher

ES: Señal de piso

DE: Bodenschild

Metal detectable & X-ray visible Floor Sign, available in 9 vibrant colours. Alongside our range of standard sign messages, we can also provide customised signage with any sign design and language.

## Features & Options

New Product!

1 PACK

Bespoke signs are also available in stainless steel and anodised aluminium

### Features & Options
