

**SHOES**  
FOR CREWS<sup>™</sup> | STEP  
INTO  
ACTION

**2024**

**THE ORIGINAL SLIP-  
RESISTANT FOOTWEAR  
SINCE 1984.**

**SAFETY.  
FASHION.  
COMFORT.**

**SAFETY | FASHION | COMFORT IS MORE THAN A  
PROMISE. IT'S OUR PASSION.**

We live and work to craft safe, attractive and comfortable shoes  
to make work life that much easier. See for yourself...

## OUR PASSION

**Shoes For Crews is synonymous with comfort & slip resistance. As pioneers in slip-resistant outsole technology with almost 40 years of experience, we offer a wide range of high-quality footwear combining smart, trendy styles with optimum comfort.**

Our mission is to keep the workforce safe on the job with comfortable, quality protective footwear solutions – reducing accidents and saving money.

Shoes For Crews has more than 500 employees in the USA, Europe and China, and has its own logistics centres in the USA, Canada, UK, and the Netherlands. Personnel in over 150,000 companies around the world rely on the safety and protection afforded by our footwear.

We design and manufacture one of the largest and most comprehensive ranges of slip-resistant footwear. With over 280 styles for men and women – from sporty, casual and smart to safety footwear and specialist footwear for emergency personnel/operatives and the military.

Our footwear, engineered with a unique slip-resistant outsole, is sold in over 40 countries. Today, Shoes For Crews markets its own brands SFC, SFC PRO, Mozo, and Lila.

# STEP INTO ACTION

## FOCUSED ON THE INDUSTRIAL SECTOR – OUR SPECIAL-PURPOSE BRAND: SFC PRO.

### STEP INTO ACTION:

We continuously aim to advance not only our technology and expertise but also the industries we serve. We are proud to introduce the brand SFC PRO. With a focus on the industrial sector, SFC PRO has been designed with the unique challenges of those working in the field in mind.

Our industrial brand, SFC PRO, supports safety and comfort throughout your workday, no matter what surprises it may hold.

### SFC PRO SHOE STYLES CAN BE FOUND ACROSS THE FOLLOWING PRODUCT CATEGORIES:

Safety Shoes, M.A.P.S. (Military, Ambulance, Police, Security), and Wellingtons.

### SAFETY

### M.A.P.S.

### WELLINGTONS

# WHY? PRECISELY

"BECAUSE WE WANT EVERYONE TO START  
THEIR DAY FEELING GOOD AND STANDING FIRMLY  
ON THEIR OWN TWO FEET."

# THE OUTSOLE? BETTER THAN JUST GOOD. OTHER COMFORTS? EXACTLY THE SAME.

## TRIPGUARD – TO HELP REDUCE FALLS

Large lugs on the front of the shoe can cause a trip hazard so we developed TripGuard. Thanks to the slight bend and narrow lug profile, you can easily move between slippery surfaces, carpets and runners.

## SPILLGUARD – TO PROTECT AGAINST SPILLS

If you handle liquids in the workplace, your feet need splash protection. That's why we have incorporated a membrane in many designs to keep the forefoot dry.

## LIGHTWEIGHT – AS LIGHT AS A FEATHER ON YOUR FEET

Our shoes are particularly light thanks to the foam composite we use. This technology makes every step 100 grams lighter. Calculated over an 8-hour shift, this brings enormous relief for your legs and joints.

## EASY CLEAN

Easy cleaning is a key feature of our footwear designs: The materials and coatings we use help to keep your footwear looking tip-top and well cared for with little maintenance required.

Our mission:  
**MAXIMUM COMFORT WITH EVERY STEP.**

## SAFETY SYMBOLS AND PRODUCT FEATURES IN THIS CATALOGUE

- SFC outsole
- 4SG Four Seasons Grip outsole
- ICE PRO outsole

# OVERVIEW: OUR OUTSOLE TECHNOLOGIES.

**SAFE GRIP WITH EVERY STEP –  
OUTSOLE TECHNOLOGIES THAT  
CAN BE RELIED ON.**

## THE SFC OUTSOLE

Whether in hospitality, healthcare, or retail, wet or oily surfaces can quickly become a hazard for workers throughout the day.

Here, the trusted SFC outsole provides safety with every step. As the tests below demonstrate, its excellent slip-resistance far exceeds the industry standard. This effectively helps prevent workplace accidents caused by slipping or falling.

### TESTING THE SLIP RESISTANCE OF OUR SFC OUTSOLE [EN ISO 20344:2021]

STANDARD REQUIREMENT

SR REQUIREMENT

Wet or oily ceramic tiles can quickly become a slipping hazard. The SFC outsole provides grip and excellent slip resistance.

■ Shoes For Crews outsole  
■ Industry standard

Slip resistance test according to EN ISO 20344:2021, conducted by Intertek Testing Services Shenzhen Ltd., in August 2022; on a scale of 0.0 (without slip resistance) to 1.0 (very high level of slip resistance, e.g. on dry carpeted floors). All SFC shoes are fitted with the patented, slip-resistant Shoes For Crews outsole.

© Perini - Top Frisk

## THE ICE PRO OUTSOLE

Slushy snow and wet or frozen ice are extremely unfavourable conditions for safe work. That's precisely why we've developed the ICE PRO outsole:

With its unique structure and sophisticated material blend, it provides superior slip resistance on icy surfaces when compared with the competition.

The structure and material compound of the ICE PRO outsole provide high levels of slip-resistance, particularly on icy surfaces.

### TESTING THE SLIP RESISTANCE OF OUR ICE PRO OUTSOLE ON ICE [SATRA TM144:2021]

■ ICE PRO outsole  
■ Recognized competitor

Slip resistance test according to SATRA TM144:2021, conducted by Intertek Testing Services Shenzhen Ltd., in December 2022; on a scale of 0.0 (without slip resistance) to 1.0 (very high level of slip resistance, e.g. on dry carpeted floors). All SFC shoes are fitted with the patented, slip-resistant Shoes For Crews outsole.

## THE 4SG OUTSOLE

Prevent accidents on wet, icy, and oily surfaces: Our 4SG Four Seasons Grip outsole is specifically designed for challenging surfaces and environments – across all seasons and weather conditions.

It meets the DIN ISO 20344:2021 standard and surpasses the industry standard in terms of slip-resistance and safety. As the results on the following page demonstrate, this outsole offers exceptional slip-resistance properties – even on ice!

The 4SG outsole: Safe grip in any weather.

The 4SG outsole excels in extreme conditions: It provides a high level of protection on wet, muddy, snowy, and oily surfaces.

### TESTING THE SLIP RESISTANCE OF OUR 4SG FOUR SEASONS GRIP OUTSOLE [EN ISO 20344:2021]

STANDARD REQUIREMENT

All SFC shoes are fitted with the patented, slip-resistant Shoes For Crews outsole.

# OUR FOOTPRINT IS GETTING NOTICEABLY SMALLER.

## WE ARE REDUCING THE ECOLOGICAL FOOTPRINT OF OUR SHOES

Our world is changing, so we can't stand still. To be ready for the future, Shoes For Crews are developing new materials and production methods to decrease their environmental footprint, step by step.

### OUR STRATEGY FOR SUSTAINABLE PRODUCTS:

# IMPROVEMENTS TO SUSTAINABLE PRODUCTION AND OUR RESPONSIBLE USE OF RESOURCES.

## OUR GOAL: LEADING THE WAY THROUGH INNOVATION AND DEDICATION

Rather than just changing individual styles, we are gradually changing our whole production process and the materials we use.

## HOW DOES RECYCLING WORK?

**PET bottles** are converted to a granulate which we use to manufacture, among other things, a new **inner lining** for our shoes.

The **EVA material** from old flipflops is granulated and recycled to produce new **insoles**.

Old **tyres** are separated into their constituent materials, and the rubber processed into granulate or powder form. From this, we make components for our new **outsoles**.

# M.A.P.S. | SHOES FOR MILITARY, AMBULANCE, POLICE, SECURITY

READY FOR USE AT ANY TIME.  
WITHOUT COMPROMISE.

Well equipped for use: When every second counts, solid and comfortable footwear is the be-all and end-all. Our footwear for military, ambulance, police and security (M.A.P.S.) give excellent levels of comfort with a highly slip-resistant outsole.

**DEFENSE MID**

Unisex: 62210 Black 3-13 (36-48)

EN ISO 20347:2022 [O6 HRO SR ESD LG]

- > Removable cushioned insole (recycled EVA)
- > Extra cushioning
- > Energy absorbing heel construction
- > Breathable and waterproof
- > Superior slip-resistant outsole with TripGuard
- > Heat resistant outsole up to 300 °C
- > Durable combination of coated leather and mesh
- > Recycled polyester lining
- > Metal-free, antistatic
- > Resistant to penetration by bloodborne pathogens
- > Sidezipper
- > 6" or 15.2 cm shaft height
- > Weight per shoe: 508 grams (based on size 39)

**DEFENSE HIGH**

Unisex: 62211 Black 3-13 (36-48)

EN ISO 20347:2022 [O6 HRO SR ESD LG]

- > Removable cushioned insole (recycled EVA)
- > Extra cushioning
- > Energy absorbing heel construction
- > Breathable and waterproof
- > Superior slip-resistant outsole with TripGuard
- > Heat resistant outsole up to 300 °C
- > Durable combination of coated leather and mesh
- > Recycled polyester lining
- > Metal-free, antistatic
- > Resistant to penetration by bloodborne pathogens
- > Sidezipper
- > 8" or 20.3 cm shaft height
- > Weight per shoe: 544 grams (based on size 39)

**BELTRA**

Unisex: 62208 Black 2.5-15 (35-50)

EN ISO 20347:2022 [O6 SR ESD]

- > Removable cushioned insole (recycled EVA)
- > Extra cushioning
- > Breathable
- > Superior slip-resistant outsole with TripGuard
- > Two-part outsole for more control and flexibility
- > Durable, waterproof combination of coated leather and mesh
- > Recycled polyester lining
- > Metal-free, antistatic
- > Resistant to penetration by bloodborne pathogens
- > Weight per shoe: 376 grams (based on size 42)

**CARRIG LOW**

Unisex: 62201 Black 2.5-13 (35-48)

EN ISO 20347:2022 [O6 HI CI SR ESD LG]

- > Removable cushioned insole (recycled EVA)
- > Extra cushioning, energy absorbing heel construction
- > Breathable
- > Superior slip-resistant outsole with TripGuard
- > Heat and cold insulation
- > Durable, waterproof combination of coated leather and mesh
- > Recycled polyester lining
- > Metal-free, antistatic
- > Resistant to penetration by bloodborne pathogens
- > Weight per shoe: 526 grams (based on size 43)

**CARRIG MID**

Unisex: 62202 Black 2.5-13 (35-48)

EN ISO 20347:2022 [O6 HI CI SR ESD LG]

- > Removable cushioned insole (recycled EVA)
- > Extra cushioning, energy absorbing heel construction
- > Breathable
- > Superior slip-resistant outsole with TripGuard
- > Heat and cold insulation
- > Durable, waterproof combination of coated leather and mesh
- > Recycled polyester lining
- > Metal-free, antistatic
- > Resistant to penetration by bloodborne pathogens
- > Weight per shoe: 507 grams (based on size 39)

**CAMBRIDGE GL**

Unisex: 62207 Black 5-14 (38-49)

EN ISO 20347:2022 [O2 SR ESD]

- > Classic professional style
- > Removable cushioned insole (recycled EVA)
- > Padded comfort collar
- > Waterproof leather upper
- > Recycled polyester lining
- > Metal-free
- > Highly dog-resistant outsole for outdoor use
- > Weight per shoe: 360 grams (based on size 42)

**CALLAN LOW**

Unisex: 62203 Black 2.5-13 (35-48)

EN ISO 20347:2022 [O6 HI CI SR ESD LG]

- > Removable cushioned insole (recycled EVA)
- > Extra cushioning
- > Superior slip-resistant outsole with TripGuard
- > Energy absorbing heel construction
- > Heat and cold insulation
- > Waterproof coated leather upper
- > Recycled polyester lining
- > Metal-free, antistatic
- > Resistant to penetration by bloodborne pathogens
- > Weight per shoe: 510 grams (based on size 43)

**CALLAN MID**

Unisex: 62204 Black 2.5-13 (35-48)

EN ISO 20347:2022 [O6 HI CI SR ESD LG]

- > Removable cushioned insole (recycled EVA)
- > Extra cushioning

# MATS

**DO YOU FEEL COMFORTABLE AND SAFE ON YOUR OWN TWO FEET? IF NOT, TAKE A LOOK AT OUR MIGHTY MATS®.**

Move around more nimbly and efficiently with both feet firmly on the mat. Thanks to our slip-resistant floor mats, transform any greasy, slippery surface into a surface with unprecedented grip.

Non-slip surface for safe footing.

Non-slip SFC underlay keeps the mat firmly and securely in place.

Perforations allow liquids to drain downwards from the surface.

### MIGHTY MAT® CLASSIC

20 Black 91.44 x 152.40 cm

- > High traction, slip-resistant surface
- > Patented slip-resistant rubber base
- > All grip upper with serrated edge for added durability

40 Black 91.44 x 121.92 cm

- > High traction, slip-resistant surface
- > Rubberised diamond plate pattern
- > Patented slip-resistant rubber base and grid pattern
- > Anti-fatigue cushion provides all-day comfort
- > Height: 14.8 mm

# PURCHASING TIPS

## CORRECTLY FITTING FOOTWEAR MAKES A DIFFERENCE.

Long days are standard practice. That's why it's important to have perfectly fitting footwear to allow you to move around comfortably, that is easy on your feet and joints and therefore makes your day easier.

# COMFORT FIRST. THE RIGHT SIZE. A GOOD FIT.

## WHICH SHOE SHOULD YOU CHOOSE?

Do I need a comfortable shoe that allows me to cover many kilometres every day without experiencing tired legs in the evening? Am I exposed to liquids? Or do I need to look smart but also wear a safety shoe while on shift?

Our purchasing guide explains the key safety symbols as well as product features and provides a table of international shoe sizes for comparison.
